CAREER OBJECTIVE

Final-year B.Tech Information Technology student interested in Full Stack Development and AI. Building practical web applications while strengthening skills in Python, SQL, JavaScript, and responsive UI development. Seeking an opportunity to contribute to useful software solutions and grow as a developer.

TECHNICAL SKILLS

Programming & Data: Python (Basic), SQL, Java
Web Development: HTML, CSS, JavaScript, Responsive Web Design
AI & Data: AI Fundamentals, Machine Learning Fundamentals, Data Science Fundamentals
Tools & Design: Git, GitHub, Figma, UI/UX Design
Professional: Team Collaboration, Adaptability, Quick Learner

EDUCATION

B.Tech — Information Technology — M.A.M. College of Engineering and Technology | Pursuing
Higher Secondary Certificate (HSC) — St. Joseph's Girls Higher Secondary School, Mannargudi | 79.5%
Secondary School (Class X) — Government Higher Secondary School | Pass

INTERNSHIPS

Full Stack Web Development Intern | NoviTech (Duration: 1 Month)
- Practised front-end and back-end web development concepts.
- Worked with web technologies to build responsive web application interfaces.
- Collaborated on creating functional, user-friendly solutions.

UI/UX Design Intern | ARTIFAI TECH (Duration: 7 Days)
- Learned user-centred design basics for websites and mobile applications.
- Created wireframes and prototypes using Figma.
- Practised improving usability and visual layout.

Machine Learning Intern | ARTIFAI TECH (Duration: 7 Days)
- Explored Machine Learning concepts using Python.
- Worked with datasets and basic data-preprocessing concepts.
- Learned how ML can support real-world problem-solving.

PROJECTS

DrawToWeb AI — Sketch-to-Web Interface Generator
- Developed a web application concept that converts a user-provided design or sketch into web UI code.
- Built a front end with HTML, CSS, and JavaScript and an Express.js backend integrated with the Gemini API.
- Added features to view, copy, and download generated UI code.

VoicePrint — Secure Vault Prototype
- Built a browser-based secure-vault project using HTML and JavaScript with face-recognition model assets.
- Explored authentication-focused user flows and repository management with Git/GitHub.

Personal Developer Portfolio
- Designed a responsive portfolio to present skills, projects, internship experience, and contact links.
- Worked on animated UI elements and a client-friendly contact section.

COURSEWORK & CERTIFICATIONS

- Full Stack Development
- UI/UX Design
- Machine Learning
- AI for Beginners
- Python for Data Science
- Microsoft Advanced Excel
- Data Science and Analytics
- Blockchain

ACHIEVEMENTS & ACTIVITIES

- Completed internship training in Full Stack Web Development, UI/UX Design, and Machine Learning.
- Participated in hackathons and symposiums and gained hands-on project experience.
